Over the coming weeks, we'll be unveiling our new website with updated shopping function, product information and how-to's. It's one way we're improving your experience with CCA.

We hope to meet your expectations every day. Whether it's using our professional-grade products, our competitive pricing, or our knowledgeable staff, we continue to be the go-to supplier in our market. I am proud to say that our staff is, by far, the hardest-working group committed to providing you the best service.

Need more work? We have many homeowner's trying to tackle jobs and wishing they hadn't and many more asking for referrals. Let us know if you are looking for more work or want us to direct customers your way.

As always, I'd like to hear from you if you have any suggestions to improve what we do for you. Call me anytime at the office at 970-242-4651.

Thank you for your continued business!

Tom Halberg

President

Project Success Using the Right Products

Now is the time to get those cracks and joints repaired for your customers. Our Sonneborn/BASF NP 1 is the best thing out there for sealing walls or sloped grade and comes in 12 different colors to match your work. For flat surfaces requiring a self-leveling product, our SL 1 flows easily and comes in limestone and gray.

We have stamps from Proline and Brickform and a full line of acid and water-based stains and dyes from Scofield and Sika. We stock top of the line sealers from Dayton Superior and Xypex. Our have the largest stock in the area for special tools and equipment from the best manufacturers in the industry, like Klein, Marshalltown, Ditec, and Big Sky Tools.

Safety First

You'd be surprised how many people shop their safety products at our store - we have gloves, ear protection, hardhats, boots and safety glasses all at incredible prices.

Since we fabricate rebar right here in Grand Junction and deliver our products for most customers, we use the same safety products that we sell.

Stop in and we'll get your crew fitted with the right safety gear!
